- Make Admin Dashboard Totals in following format:  
Courses, Assigned Courses, Emails, Employees  
Tasks, Assigned Task, Lessons, Modules  
Use the same colors and images that are present just switch positions
- Change “Task Management” quick link on admin account to “Assign Courses”
- Add Terms & Conditions page to employee accounts (all accounts)
- Show quiz completed on assigned courses once an employee gets 100%, even if it’s the first time they take the quiz, or second, or third.
- Go over “on click” functionality on the quiz, when clicking on an answer , it will change the answer for number one question as well.
- Go over “on click” functionality of the view task, sometimes when viewing a certain task, it will redirect an employee to a training course module page?
- Backups configuration on Godaddy?
- Unsecure site on apple mobile phone, what can we do to get secured site?
- Quote for website makeover?
